

## Drawing for ages 8-14

Level: Beginners-Intermediate

Ages 8-13

\$45.00 per 1 hour 45 minute class

### Class Description

This course is intended to give students a foundation for success and satisfaction for other art media of interest such as painting and sculpture.

This class is designed to help younger artists explore form and structure from observation, to draw what they see. Later they are encouraged to use their imagination through the use of line, shape, value and texture to create original compositions. Beginning with the simplest of shapes, skill building continues through learning to incorporate contour and classic drawing and shading techniques. Projects are based on subjects such as everyday items, animation favorites, landscape and inventive forms and may incorporate media such as charcoal. This course is intended to give students a foundation for success and satisfaction for other art media of interest such as painting and sculpture.
